Dear Readers,

Orthopaedic SPOT is up and running! Our team has decided to present a new edition every four months, which means 3 publications a year. We believe that this will increase the quality of the papers we publish, and allow for the peer review process to be performed promptly. We know that most of all, the authors want a quick review process and a fast answer to their submission. To stimulate that, the SPOT Direction has implemented an innovative decision. Every Reviewer of Orthopaedic SPOT that enters the process of peer review for at least once in that year, will have a free inscription for the National Congress. The idea is to show how valuable and essential the quality work of the reviewers is for our new journal to thrive.

To further please our authors, as soon as articles are accepted, they are technically revised, edited, and put online ahead of print, without waiting for the next issue to be published.

On the other end of the process, the responsibility is yours. Yes! You as a reader are also responsible for the success of your new Journal. How? Well, transform yourself into an author – either the main author or someone who stimulates younger authors – and submit your paper! Our team is eager to receive it and try to make its publication a reality.

We are waiting for you! Come and be a part of the success of Orthopaedic SPOT.

**João Torres**

Editor-in-Chief
